

mappa mundi

map your world

a mappa mundi is a three-minute drama video that shows the changes you are making as the world changes

mappa mundi connects your personal, environmental, social and economic change

use drama, soap, comedy, horror, dance, animation, flash mob...

the videos are stored online at the mappa mundi and connected to form an evolving map of a changing world

you and mappa mundi

what story do you have to tell?

what about your friends, group, club or class?

film your community dealing with poverty * animate your response to climate change * choreograph your passion for transition * make your family's protest march the punchline

upload a video and share your change with the world!

participate

Az Theatre invites individuals and groups from all over the world to make three-minute dramas that tell their own stories of change

need help?

Az Theatre will help you plan your three-minute video and provide you with experienced drama and video facilitators if you need them

why do this?

- use your creativity to map and encourage change
- realise the power of sharing your change with the world
- run a group activity that is fun and based on discovery
- be a contributor to the creative commons
- add your creation to a collective mosaic of images and stories
- link up with other participants in a programme of live events

what does it take?

- 24 hours (over a few weeks)
- very little money
- space to work, a video camera, a laptop
- basic performing, photography and video skills
